

Instructions for Completing the NCHSAA Student-Athlete Preparticipation Physical Evaluation (PPE)

In order to be medically eligible for participation in practice or in interscholastic athletic contests, a student must have a completed NCHSAA PPE and submit it to the school. The PPE is four (4) pages in length and includes the **History Form**, the **Physical Examination Form**, and the **Medical Eligibility Form**.

The PPE **History Form** (pages 1-2) is completed and signed by the parent or legal custodian on behalf of the student-athlete. The completed and signed PPE History Form must then be presented to the examining Licensed Medical Professional (LMP) (physician licensed to practice medicine (MD/DO), nurse practitioner or physician assistant) for review when they fill out the Physical Examination Form.

The completed PPE **Physical Examination Form** (page 3) is signed and dated by the LMP who performed the examination. The physical examination builds on information obtained in the medical history.

The PPE **Medical Eligibility Form** (page 4), which is also signed and dated by the LMP, indicates the student-athlete is either medically eligible or not medically eligible for sports participation.

Student-Athlete COVID Questionnaire

Student-Athlete's Name: _____

Date of Birth: _____ Age: _____

COVID RELATED QUESTIONS ABOUT THE STUDENT-ATHLETE	YES	NO	NA
1. Since January 1, 2020 have you been told that you have had a positive test for COVID-19, OR have you been told by a medical professional, your school, or local health department that you have had to quarantine (stay home) due to concern that you had COVID-19 symptoms?	●	●	●
2. If the answer to 1 was "Yes", has the required <i>Return to Play Form: COVID-19 Infection Medical Clearance Releasing The Student-Athlete to Resume Full Participation in Athletics</i> been completed?	●	●	
3. Have you been fully vaccinated against COVID?	●	●	

Note: The NCHSAA maintains an unquestionable commitment to the health and safety of student-athletes and athletic staff alike. These questions were not included in the History section of the 2021-2022 Preparticipation Physical Evaluation (PPE) as that is a copyrighted document. The Association strongly recommends answering these questions to assist health care professionals, licensed athletic trainers, first responders and coaches in screening students for potential long-term impacts related to COVID-19 such cardiovascular implications. The answers may also help administrators and health care professionals determine whether a student-athlete who may have been exposed to a confirmed positive case of COVID-19 needs to quarantine even though they do not exhibit symptoms.

While the Association strongly recommends answering these questions, choosing not to do so will not impact the eligibility of a student-athlete to participate in athletics.

Recommendations: _____

I have examined the student named on this form and completed the preparticipation physical evaluation. The athlete does not have apparent clinical contraindications to practice and can participate in the sport(s) as outlined on this form. A copy of the physical examination findings are on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the medical eligibility until the problem is resolved and the potential consequences are completely explained to the athlete (and parents or guardians).
